

# Quality of input data:

## Map presenting Pomeranian Bay site sent to the EC

— Border showed in governmental proposal

— Border verified during elaboration of management plan

## Examples of records from the project of management plan elaborated for Natura 2000 site Pomeranian Bay

<b>Description of threat</b>	<b>Consequences of threat</b>	<b>Methods of elimination or limitation of threats and their consequences</b>
Birds by-catch; Especially dangerous in areas of high concentrations of birds	Main factor limiting birds populations on this site	Creation of 3 zones differ in fisheries and sport-recreational use: <ul style="list-style-type: none"><li>- zone I – covers an area where fishing and angling will be prohibited during whole year;</li><li>- zone II – covers an area where fishing with stand nets will be prohibited during whole year;</li><li>- zone III – covers an area where fishing and angling will be allowed during the whole year.</li></ul>

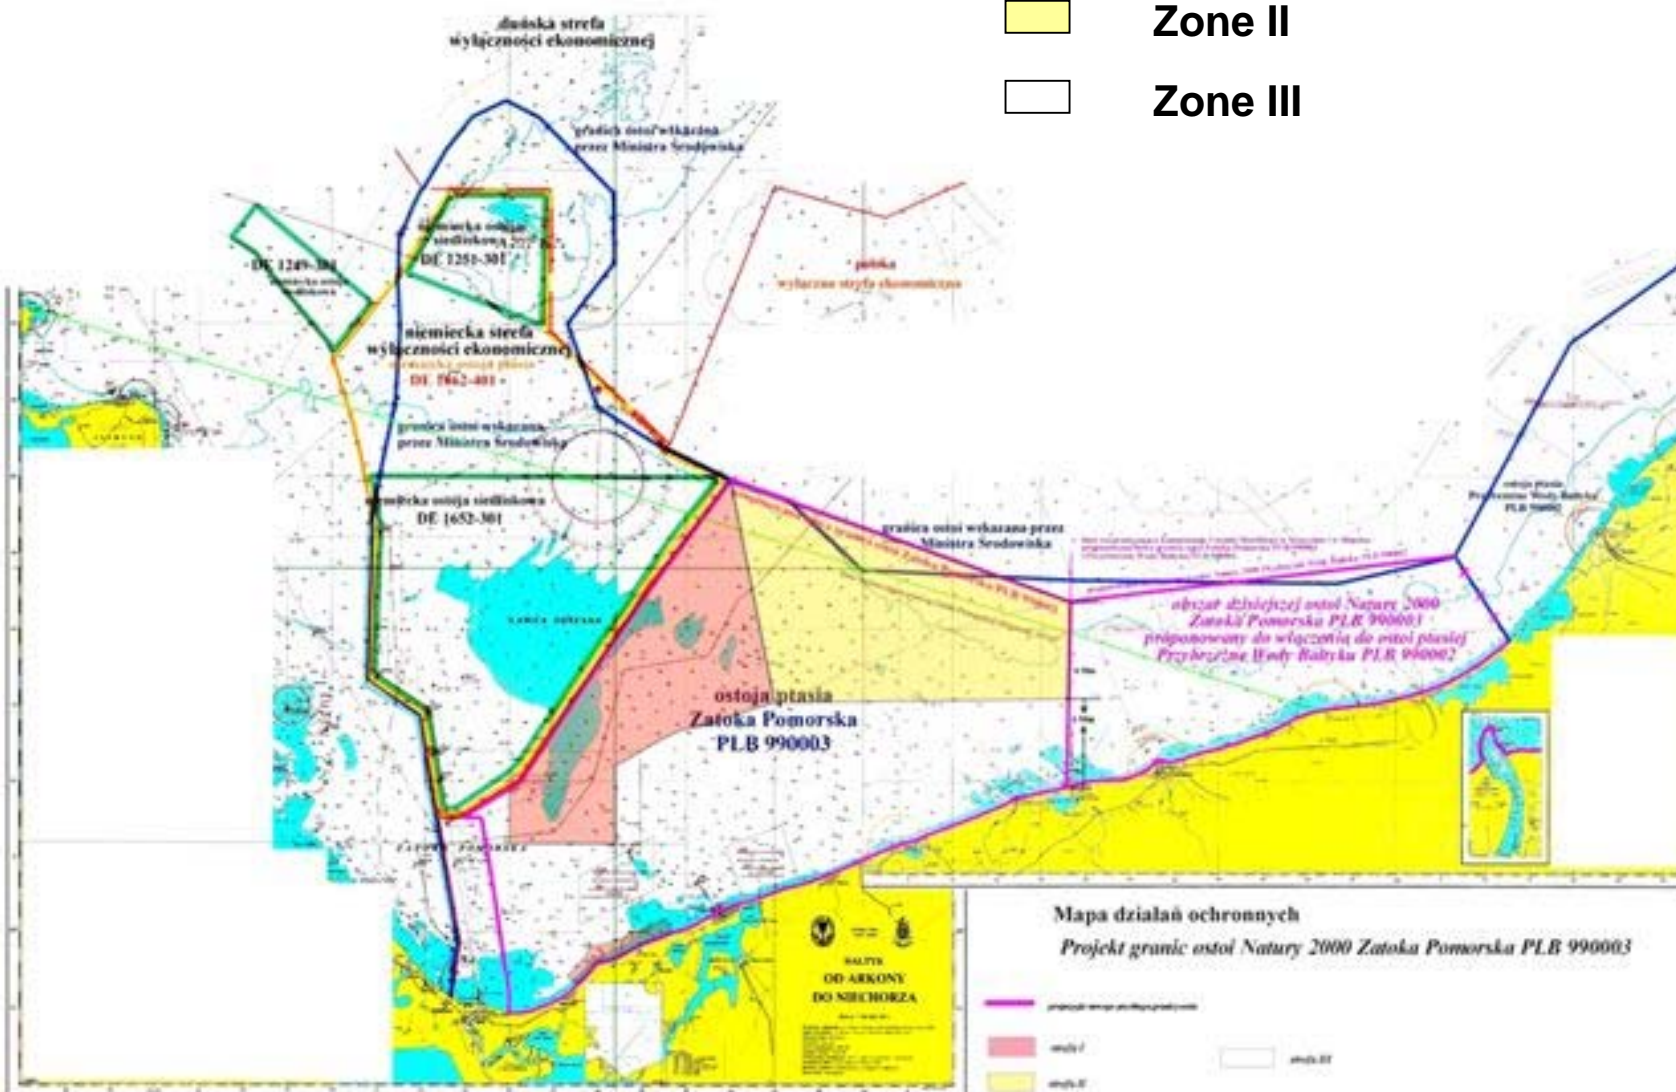

# Map of conservation activities

— Proposal of new border

Zone I

Zone II

Zone III

<b>Description of threat</b>	<b>Consequences of threat</b>	<b>Methods of elimination or limitation of threats and their consequences</b>
<p>Exploitation of sand, gravel and heavy metals deposits.</p>	<p>Re-suspension of sediments. Can cause increased mortality of bentos organisms especially during summer period. Possible oxygen deficit; re-circulation of chemical load. Disappearance of local benthofauna resources which can cause decrease of food base of birds.</p>	<ul style="list-style-type: none"> <li>- prohibition of such works in zone I;</li> <li>- exploitation works allowed outside summer period;</li> <li>- preparing environmental impact assessment for such works, special attention should be placed on influences on bentos organisms.</li> </ul>

<b>Description of threat</b>	<b>Consequences of threat</b>	<b>Methods of elimination or limitation of threats and their consequences</b>
Wind power plants	Frightening and killing of birds	Prohibition of localisation of wind power plants in zones I, II and III (whole area of the site)
Move of fast boats, regatta and sport competitions	Frightening of birds and its collisions with boats	Prohibition of regatta and sport competitions in zone I; speed limit to 8 knots in zone I and II
